## DONIPHAN COUNTY, KANSAS BIRTHS

from

6th May, 1898 to 23rd Dec., 1910

This twelve year record of births is all that was ever recorded in the Doniphan County Court House, Troy, Kansas. There were hundreds of births--far more than the Doctor's reported. No doubt Mid-wives were used and were not required to make reports.

At first glance, the reader may be confused by our method of placing a lot of information into two lines. It starts with the father's name, age, color, where born. American if born in the states, his occupation, and residence. The mother's maiden surname is in parenthesis, her age and nationality. Wherever a ? mark appears, it means that we are not certain of the spelling or subject. Nick-names gave us lots of trouble, causing us to search marriage records. In such cases their marriage date will appear along with other information to assist the researcher.

The reader will also discover than many births are mis-numbered and out of order. The handwritting was poor and the spelling--worse! In many cases the Mother's information was left out entirely. Those named and the dates are as accurate as humanely possible.

One more important fact to remember is this: Over 90% of the families lived in the country, their occupation was Farming! The location given was not the town, but their MAILING ADDRESS.

October 1984

2nd child, Male, born, 26th Aug., 1902.

## THE WIFE'S INDEX

This Index of over 1,900 Maiden Names was developed expressly for the Researcher. Again caution is to be used as there are many names mis-spelled, guessed at, or unreadable. Whenever there is doubt on our part you will find a ? mark.

Several items came to our observation, they are:  
(a) Sisters married brothers. (b) It reveals the number of girls in any one family. (c) There are several duplications, such as Mary Smith, or Mary Jones, each Mary is married to a different man. In a few instances this was proved to be correct by locating their marriage license and recording same. There are others where the Birth Record shows them to be a wife of two different men and are recorded as such. Every effort was made to correct such discrepancies, but we were unable to. Therefore be on the alert for such errors. It would appear that the family name was written as it may have sounded rather than the correct spelling.
