DONIPHAN COUNTY, KANSAS

Resident's of 1890

This book contains over 6,500 names of Adult Men and Women. Unfortunately, the Tax Assessor did not include the children.

This is the nearest record to any Census of this period. The National 1890 Census, which was destroyed by fire, contained much more information and would be in a more orderly fashion than we could compile from the old Tax Books.

Each Township book contained a Resident's list. One half of the page contained spaces for men, school districts, age, and location. The other half contained the woman's name, age and location. In many cases initials were used instead of given names. Where you find (fem) a female is denoted.

There were many instances where the surnames matched on the same line. Many others were several lines below the male surname...therefore we URGE you to be very careful in assuming that "Mary Doe" is John Doe's wife!

If in doubt, we suggest that you check the Doniphan County marriages from 1855 thru 1912. The Northwest Mo. Genealogical Society, 719 Francis St. or write, Box 76, Station E., St. Joseph, Mo. 64505. The records have been copied and are in a three volume set.
