Hi Marcia,

Thanks for the reply. Not long after I sent the email to you, I got a reply from another source that locked in the info I was looking for.

From your message, yes, William Chambers (W. Chambers) is the father of Elliza Chambers. I got my reply on this from someone studying the Chambers family. They were able to confirm James Nelson Sellers as Eliza's husband, birth dates, marriage date/location, and children matched the data I had.

I feel along with census data and such, I have enough to confirm (at least in my mind) a line from James Nelson and Eliza Sellers of Indiana to me. From previous studies, I confirmed James Nelson Sellers back to Nataniel David of PA.

That means I have some Crawford data. Not a lot though, and some of it I think came from you.

Regards,

Roger Sellers

Roger,

Unfortunately, I don't have a lot to help you. I did just find a census record that is probably for William H. Sellers (father of James N. Sellers) in 1850 -- Missouri, Maries County, Roll 632 Book 1, Page 609

Directly below the W. H. Sellar family is the family of W. Chambers. This is probably the family of Elizabeth Chambers.

I also found an 1870 census record for Wm. H. Sellers Missouri, Phelps County, Roll 797, Book 1, page 689

Further down on the same page is an Eliza Sellers with 3 sons: Wm H. age 7, Geo age 5 and John S. age 3.

There is a fairly active SELLERS research group. The web site is

<http://showcase.netins.net/web/sellerfamily/>

They also have a mailing list that you can subscribe to. If you go to Rootsweb and follow the links for mailing lists you can subscribe to the list (or search the archives).

I'm not actually a Sellers descendant. However, the Sellers family is intertwined with the Crawford family that I am descended from (along with another Crawford line).

So far, I haven't found the family in the 1860 census.

Good luck with your research and let me know if there's any other way I can help.
