There are 18 more books of the Shawnee County records and almost as many of the United States District Court, First Division. I have copied and verified all entries, and cross referenced any semi-readable names. There are naturalization actions in my records that I found had never been indexed before, yet they are there in the Court's records.

If you find your ancestors on this list, or if you believe they might have been at another period of time, or in the other Court, I can give you a definite answer. Send an SASE with your inquiry.
